NEW!

VDE Local Test according to IEC/EN 60065, IEC/EN 60950-1 and IEC/EN 61558

Since VDE started business in China region in 2004; we have achieved a lot of success by offering clients local service. Now VDE has successfully moved a step further in service localization in China. Our new IT/AV test team with German and local experts can now offer you VDE GS-, VDE EMC- and CB testing according to IEC/EN 60065, IEC/EN 60950-1 and IEC/EN 61558 standard in Shenzhen, China. We can also offer other kind of VDE test reports according to the customers order (e.g. construction check, LVD, etc.)

IT/AV appliance and accessory manufacturers, overseas retailer and buyers can now get benefits from our new service in

- Immediate response of customer enquiries in your local language and VDE expertise consultation in your near.
- Ensured testing delivery time and service with high mobility according to the client specific needs.
- VDE top product quality mark testing close to the manufacture site.

Product testing scope covers now different kinds of AV/IT appliances (e.g. Micro stereo system, DVD/CD player, TV set, Power adaptor, etc) and their accessories (e.g. transformers, fans, displays etc.)
